fuel oil nozzles

FOR FAST, DEPENDABLE HOME DELIVERY

Plate 820
Constructed of high-grade BRONZE in 1" or 1¼" sizes. Available with or without inlet or outlet check valve.

"FASFLO" NOZZLES

The busy home oil service man will appreciate the McDonald "Fasflo" nozzle. Incorporates all the newest improvements that assures effortless operation, shock-proof opening and closing and super volume of flow. The exclusive shock eliminator protects nozzle, line, pump and other connecting parts.

Plate 821
Same features as 820 but constructed of light-weight ALUMINUM. Sizes 1¼" and 1½", tapped 1½" on outlet end.

VAPOR-TITE FUEL OIL FILL SYSTEM

Plate 237-A
Features VAPOR-TITE fill tube, no adaptors needed. Choice of aluminum or bronze nozzles.

CUT HOME FUEL DELIVERY TIME 7 TO 10 MINUTES PER CALL. Composition sealing sleeve forms vapor-tight connection, preventing overflow, dripping and vapor escapes. Truck needs only one unit. No home fill pipe adaptors needed; eliminate this costly material and labor expense.
